- Clear hi-res files
- Multiple approval function
- Super review powers

Overview

Artwork.workz.com is a secure online artwork portal that takes advantage of the most advanced Kodak technology to provide a faster, easier and more effective way to manage your artwork for production.

Some of the benefits of this service include:

- Fast artwork proofing times
- Easy file transfer
- High resolution (un-pixelated) files
- Multiple approvals feature
- Artwork review 'super-powers'

How it works

1. Instant file upload & print check - You
2. Artwork print optimisation - Workz
3. Final artwork digital proof approval - You

Secure log in

You will need a user name and password to access artwork.workz.com. If you don't have these yet please email artwork@workz.com and we'll quickly provide you these details.

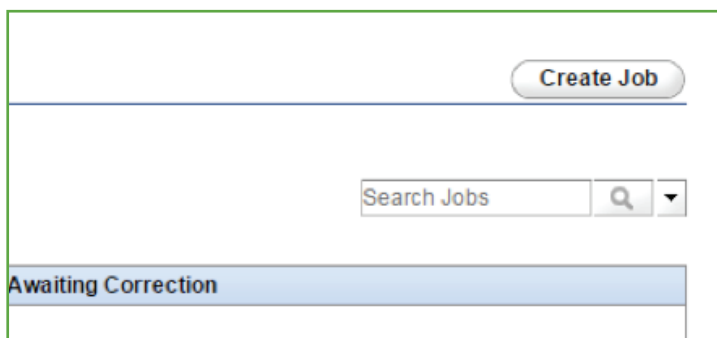

To check your system is configured properly to run artwork.workz.com please click [System Diagnostics](#).

The login form is enclosed in a green border. It contains the following fields and elements:

- Username:** A text input field containing the text 'Mark'.
- Password:** A text input field with masked characters (dots).
- Language:** A dropdown menu currently showing 'English' with a downward arrow.
- ☐ Remember me on this computer.

Upload artwork

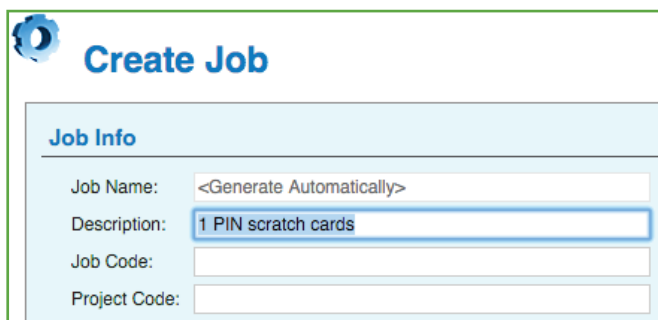

To upload a file, first a job folder must be created for each product that is being printed. If a folder does not already exist then click “Create Job”.

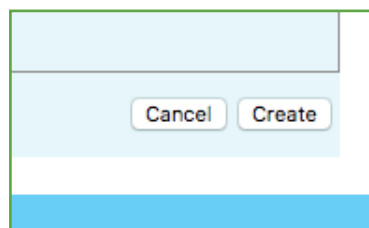

A screenshot of a web interface showing a 'Create Job' button in the top right corner. Below it is a search bar with the text 'Search Jobs' and a magnifying glass icon. At the bottom, there is a blue bar with the text 'Awaiting Correction'.

A job name is automatically generated. The job name will later be renamed to a Workz reference.

Only the description field is required when creating a job. e.g. 1 PIN scratch cards or Postpaid SIM & pack and then click the create button in the right bottom corner.

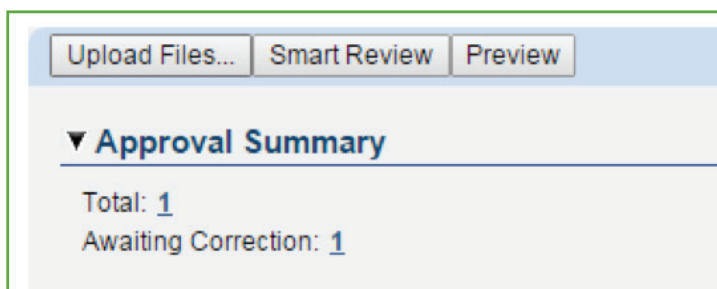

A screenshot of the 'Create Job' form. It has a header with a gear icon and the text 'Create Job'. Below is a section titled 'Job Info' with four input fields: 'Job Name' (with a dropdown arrow and text '<Generate Automatically>'), 'Description' (with the text '1 PIN scratch cards'), 'Job Code', and 'Project Code'.

A screenshot of a dialog box with two buttons: 'Cancel' and 'Create'.

Click the “Upload Files” button. Drag and drop the file(s) or click the add file button. Click upload and the progress window will appear.

A screenshot of a window titled 'Approval Summary'. It has three buttons at the top: 'Upload Files...', 'Smart Review', and 'Preview'. Below the buttons, it shows 'Total: 1' and 'Awaiting Correction: 1'.

The creation date is when the job folder was initially created.

Name		Creation Date
1 PIN scratch cards (DC-639)	0 pages	Sunday, March 13, 2016 9:07:08 AM

Print check

All PDF files that are uploaded will be automatically be checked in regards to their suitability for printing. You will receive an instant print (preflight) check summary after every file upload

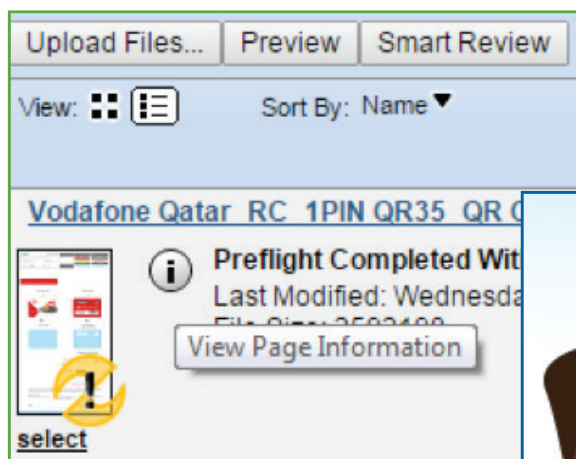

Please note the print check feature is only available for PDF files.

The print (preflight) check report categorises all issues into three sections:

- **Information:** Details of the file for your information only - no action is required.
- **Warning:** Possible concerns with artwork elements for your information - no action is required unless advised by Workz.
- **Error:** Elements of concern with the artwork file that may cause potential difficulties in printing - it is recommended to re-upload revised file.

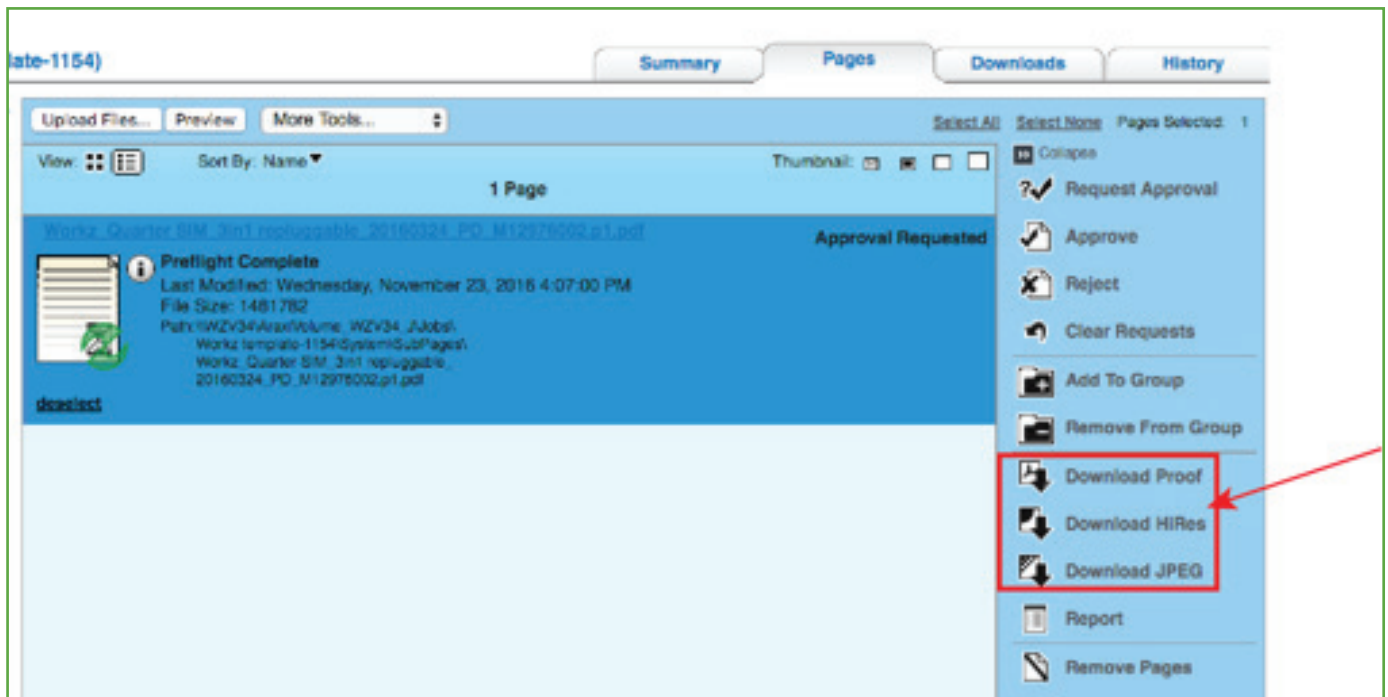

Further information on preflight issues is available in Page Information or Smart Review.

Download digital proof

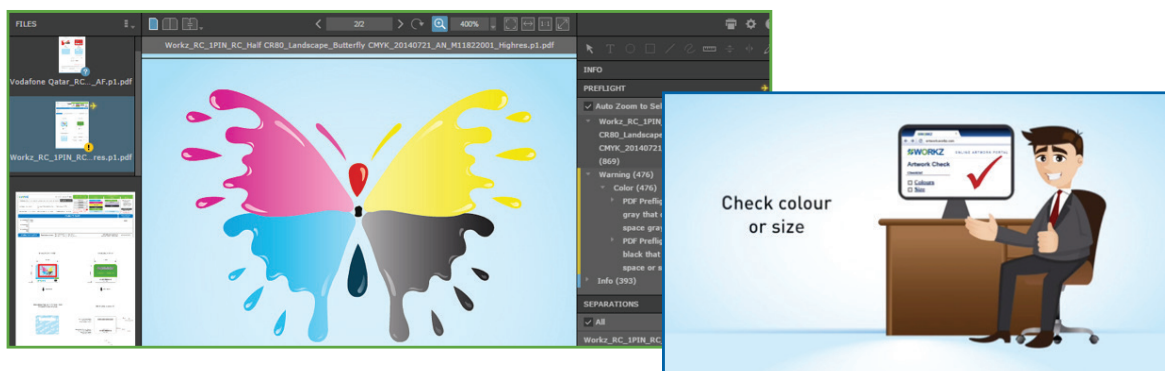

All digital proof uploaded by Workz, will be in high-resolution format and you can download the PDF's as you wish.

To download select the files and once the file is highlighted in blue as shown below, click the required proof type.

Smart Review

Smart Review uses pixel streaming technology to allow viewing of artwork(s) in full resolution and in real time. It also allows you to check colour separations, tint values with the colour density tool, collaborate with users or make annotations.

Approving artwork

Anytime an approval is required you will be receiving an e-mail notification. Artwork.workz.com allows you the chance to approve, reject, or reject - requesting corrections.

Multiple approver's

If your artwork requires approval from multiple individuals please let us know and we will set up your artwork system so all required individuals approve the artwork before we confirm your artwork finalised for printing.

Required artwork specs

To ensure your artwork is processed swiftly and guaranteed the best possible results, we highly recommend all files to be submitted to meet the following criteria:

File format

Editable **Ai** or **PDF** format

Fonts

Convert all text to outlines
or provide used fonts (Mac)
